

Catholic Healthcare West

Contact: Tim Washburn, Clinical Team Member Contracting Supply Chain Management, Catholic Healthcare West, Shared Business Services, twashbu@chw.edu, 602-307-2654.

Language from Catholic Healthcare West's RFPs for national contracts:

In keeping with Catholic Healthcare West's (CHW) Environmental Policy which states:

It is CHW's policy to manage its operations in a manner demonstrably protective of Human health and the environment. CHW seeks new and better ways to meet its Environmental goals through conservation, reduction, reuse and recycling programs. CHW is committed to improving environmental management in its Divisions and to partnering with others in its community to safeguard the environment.

Shared Business Services (SBS) selects suppliers whose philosophy is consistent with CHW's social and environmental commitments. SBS supports this policy by purchasing quality products and/or services that facilitate the use of reusable and recycled products as well as the reduction and, where possible, elimination of waste.

*Describe what your company has done over the past three years to address environmental concerns.
